

# T-Lok Barrier

The T-LOK BARRIER is a free standing, temporary longitudinal barrier system successfully crash tested to MASH TL-3.

Approved by

This precast concrete F-type barrier has an Austroads Safety Barrier Acceptance Panel (ASBAP) approval to 80km/h.

The barrier offers the lowest deflection result of any approved freestanding barrier system.

Anti-gawk / debris screens can be fitted to the barriers providing additional protection for workers and motorists.

Our fleet is new and in excellent condition.

We offer a turn-key barrier rental solution and all deployments will be solely managed and certified by the Road Safety Rental team.

The advantages of this barrier are endless

- ✓ Freestanding barrier
- ✓ Low deflection
- ✓ Safe redirection
- ✓ Fast deployment and retrieval
- ✓ No anchoring required
- ✓ Maintenance free
- ✓ Multiple end treatments can be used
- ✓ Sight / debris screen options bolt on
- ✓ Available in 3.6m so we can accommodate tight radius projects

## Specifications
