

Portable Solar Light

powerful 100W portable light

Our newest and most innovative solar lighting solution yet is a powerful 100W portable light.

Extremely easy to transport and install, the telescopic pole allows set up in under two minutes. The concrete base sets a strong foundation making this solar light an extremely robust and dependable renting option, even in inclement weather. It is wind rated for Region A with the single concrete base option, and Regions B and C with the double concrete base.

- Fully portable
- 100W all-in-one compact unit
- Mono-crystalline solar panel
- Telescopic light pole
- Winch from lowered to raised position in less than 2 minutes
