

ROAD SAFETY RENTAL

World's first MASH TL-4 freestanding barrier

- ✓ Freestanding MASH TL-4 barrier
- ✓ ASBAP approval to 100km/h
- ✓ High containment
- ✓ Safe redirection
- ✓ Superior deployment and retrieval
- ✓ No anchoring required
- ✓ Economical to transport
- ✓ Lightweight

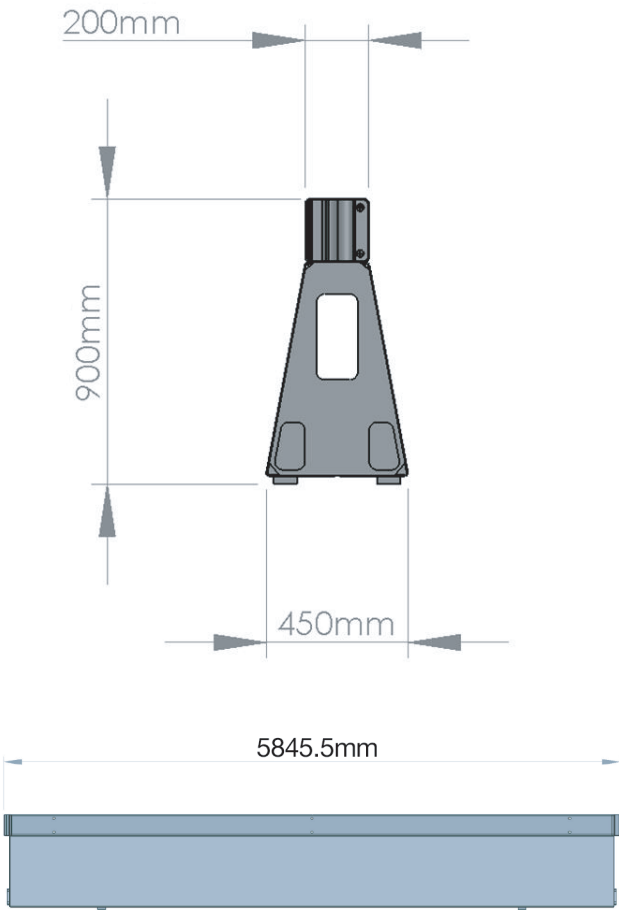

The HV2 barrier is the world's first approved and hugely sought after TL-4 unanchored crash barrier for hire.

The HV2 barrier rental solution provides a longitudinal barrier system with low deflection and high containment, combined with results that show incredible stability whilst being crash tested with a 10,000kg truck. This temporary crash barrier is approved by the Austroads Safety Barrier Assessment Panel (ASBAP) to 100km/h.

Cost-effective to transport and deploy, our exclusive rental MASH TL-4 barrier features patented technology, with unique connectors, allowing this barrier to be freestanding whilst offering high containment and low deflection simultaneously.
