

OmniStop Portable System

AUSTRALIAN INNOVATION TO PROTECT PEDESTRIANS AT EVENTS

That's why our fleet at Road Safety Rental offers the OmniStop Portable System. This temporary bollard system stops vehicles in their tracks, and is fully portable. It offers event managers an innovative solution to protecting the public from terrorists and errant drivers, without interfering with pedestrian activity.

The product has been designed to offer maximum protection, quick deployment and peace of mind for event organisers and patrons for any sizable event or festival.

Benefits of choosing the OmniStop Portable System include:

Reliable

OmniStop Portable Security Bollard has been independently crash tested to confirm it can stop a 2270kg pickup traveling at 60km/h.

For full details refer to NATA test report 21140

Unobtrusive

OmniStop Portable Security Bollard is unobtrusive and allowing free flow of foot traffic through the system, even allowing easy access for prams and wheelchairs. It does not inhibit the timely evacuation of pedestrians in case of an emergency.

Completely Portable

OmniStop Portable Security Bollard is freestanding and unanchored, which allows easy installation for temporary applications - the only requirement is a flat surface!

DISABLED ACCESS

EMERGENCY GATE

- ✓ Fully crash tested with a 2270kg vehicle at 60km/h
